

First Year ODHA Annual Session Report

President's Message

Laura Abbott, RDH

Welcome to 2019 TDHA!

I love this time of year when family time is a priority and new beginnings are on the horizon. A time for reflection and for setting goals for the future.

Last year was special for us here in Ohio to host the ADHA conference right here in Columbus. This was such a convenience for us to have resources at the National level on our back door-step. Ohio took an opportunity to step into the spotlight and it was a huge success.

This year the 2019 ADHA conference is also held just a couple miles south in Lexington, Kentucky- June 21-25th! Early bird registration starts soon- so don't miss out on this chance to rack up some serious continuing education credits and check out the latest in Dental Hygiene.

Michigan is celebrating SB 541 passing in the legislature to allow Dental Therapists to pursue an education and career as a mid-level provider. This is so wonderful for dentistry because it means more access to care for an underserved population. In many some cases this includes the elderly, children, and/or the medically compromised individuals. We continue to struggle here in Ohio with several counties that are lacking resources and continue to promote a Dental Therapist Bill for our state.

Dental Hygiene education is a perfect bridge to this emerging profession!

TDHA is excited about our CE scheduled for February on the latest ultrasonic instrumentation techniques. I can't wait to see what else our continuing education committee has in store. Please see our calendar of events!

We are always eager for new leadership in TDHA and ODHA. Please get involved and join us in Columbus for the annual Leadership Retreat on July 20, 2019. Details are on your ODHA website.

This is an exciting time to get involved and help shape the future of your profession.

Please contact me at ltai@live.com and we will get started!
We are looking for nominees now for key roles at TDHA.

Installations will be at the Spring Banquet in May.

Happy New Year!

Laura Abbott, RDH, BTAS

Vice Presidents Message

Teresa Kania, RDH, EFDA, BAHS, M. Ed

I hope everyone had a wonderful holiday season and was able to start the new year off in good health making memories with family and friends. I would like to thank everyone who was able to make the Holiday Social at Nagoya. We had a great time as always, and I am happy to report it was an all-around success.

Our Spring Banquet and Mentoring Kickoff will be held on Wednesday, May 8th at Biaggi's Ristorante Italiano, 1320 Levis Commons Blvd., Perrysburg, OH 43551 from 6:00-8:00 PM. Biaggi's is located in The Town Center at Levis Commons. They will be offering a limited menu with a cash bar. You can find their menu and pricing at www.biaggis.com. Please reserve a place in you schedules on May 8^h to join in the fun, networking and camaraderie.

PLEASE RSVP BY April 1ST, 2019

Trustee Report

Stephanie Hack, RDH, BS, EFDA

Happy New Year Toledo dental hygienists! Thank you for reading our newsletter that can help keep you aware of the events that 2019 has in store for us. TDHA is your connection to all things changing in our profession. Don't let your profession change without you knowing it. There are continuing education courses being offered this year so stay connected.

Did you know that there are 8 counties in our Toledo component? It includes the counties of Williams, Defiance, Fulton, Henry, Lucas, Wood, Ottawa, and Sandusky. This makes us a strong component for ODHA. We are a group of individual hygienists with common goals of promoting health for the public we serve. With a component of 8 counties this makes Toledo a powerful group, if we choose to be. We can work together to encourage growth for the dental hygiene profession and perhaps reduce the restrictions upon our licensure.

As you may be aware, ODHA has legislative activity to help change the way dental hygiene impacts the health of the public. This year's lobby day is April 10 at the state house in Columbus and it always creates discussion in the House and Senate regarding how dental hygiene can impact public health. Those who have experienced Lobby Day in the past have stated that legislators are clueless on how the RDH can impact oral health disparities of Ohio. Lobby day is an incredible way to get involved and create an awareness to the decision and policy makers of Ohio. Recently House Bill 184 passed which reduced the restrictions on assistant and EFDA practice. It also allows assistants and EFDAs to do more with LESS supervision. What do you think about that? If this makes you think more deeply about protecting your scope of practice and licensure than you should come!

Our state association is filled with opportunities for development. This helps to shape the future of dental hygiene and our personal careers. The weekend of May 31- June 1st at Sinclair Community College and ODHA requests your attendance for a weekend of camaraderie and continuing education. Also, every summer in July ODHA has a leadership retreat designed to encourage and inspire. On July 20 in Columbus the retreat will be interactive and inspiring. It is such a value to have this event where our state association pours into our development and growth.

Toledo component is lucky to have the members we have. Without you, things could change drastically. Quite frankly, things are changing and we need to be in support of our profession and work to protect and advance our licensure. Please consider Lobby Day and even sending an email to your representative. Check out the ODHA website to see current legislative activity. You can access house and senate bills that relate to dental hygiene. The easiest way to help protect dental hygiene is to join and invite your friends to the fun! New members are always welcome and our profession needs the camaraderie and leadership. Thanks for taking the time to read our newsletter!

First Year ODHA Annual Session Report

From November 16th through the 18th a few of us got the privilege to attend the Ohio Dental Hygienist Association Annual Session. First and foremost, we would like to thank the Owens Community College Department of Student Activities for allowing us the opportunity due to their funding.

The entire weekend was filled with exciting new things to learn. From a student perspective, the candidate's forum was one of our favorite experiences. Listening to the candidates present their speeches for the positions appropriate for them was very motivational to hear. We got to see how much they care about our profession and what they wish to accomplish for our profession. They all had very high goals for where they hope to be in the future and it really motivated us to want to do as much as they are doing for the profession of dental hygiene. These men and women inspired us to follow in their footsteps and to get involved like they are. It was amazing to see how motivated they were to make changes that wouldn't even affect them but would affect the future of students like us.

Although we did not get the opportunity to see how table clinics were ran, we did get to walk around while the students were setting up to see all the hard work they put in and their interesting topics. After seeing some of these topics it already got us excited and thinking about ours for next year!

The Student House of Delegates was really cool because it was the event that got us most involved. We loved watching and learning during the rest of the weekend but it was a great experience to have a part of the weekend that we could be more involved in. We really enjoyed

hearing other students, especially the ones from our school, put themselves out there and speak to be considered as one of the voting delegates.

We also enjoyed learning more about the PR's and PBY's, we got the opportunity to learn what they were before attending the weekend but we definitely understood them a lot more once we experienced how they are proposed and voted on. The PBY's were interesting to us students because a lot of the topics were things we would love to see happen in our careers in hygiene. Two of the items that peaked our interest was the topic of dental therapists and the topic of the live patient board exams. It was definitely neat to hear the opinions of these topics by experienced dental hygienists. Again, these were topics they were pushing for that would not all directly benefit them but benefit students like us, so it was amazing to know that they are interested in benefitting the profession as a whole.

If we didn't have the opportunity to attend ODHA as delegates I don't think we would ever fully understand the importance of it and how much it benefits the entire profession. Our jobs are about our patients and what is discussed at ODHA is all about improving this profession to better improve our patients lives and what we can do for them. We can't wait to attend ODHA again next year!

Second Year ODHA Annual Session Report

The weekend at ODHA annual session was one to remember. The four student delegates learned a lot more about the process and we were very inspired. Bryanna said, “the weekend was very inspirational and gave me just the boost I needed, and I was feeling pretty bogged down from the stress of the semester.” She enjoyed meeting members from the HOD, past and current presidents of ODHA and ADHA, as well as knowing that our voices mattered. She plans to remain involved in the organization and hopes to return one day as a member of the HOD. Erica enjoyed listening to the discussions of the PBY’s and PR’s. She said, “listening to people speak so passionately about topics that will have an impact on our future profession was very fun to be part of.” Marykayla enjoyed running for voting student delegate and being able to vote on the house floor. She was very inspired by her current instructors and other members of TDHA and ODHA. Alexis enjoyed being mentored by women that have been in the profession for over 20 years. They help her learn inside and outside the classroom. She says, “I found lots of fun in being able to voice any questions on the HOD floor and learn more about the running candidates.” She also enjoyed presenting her informative poster which went right along with PR #8.

Continuing Education

Join area hygienists on Wednesday, February 27, 2019 for the excellent course, "From Risk to Results: Periodontal Instrumentation For the Advanced Practitioner". The course presenter, Caryn Tierney, RDH, BSDH, MA is sponsored by Dentsply Sirona. Course description, objectives and speaker bio can be found on the attached flyer. Come straight from work and enjoy a potluck meal. Registration and potluck meal begins at 5:30. The course is 6:00 – 8:00 pm.

Last Name A–Q: Bring a salad

Last Name R–Z: Bring a dessert or snack

The course will be held at Owens Community College, Health Tech building, Room 102. Please share this invitation with your colleagues. We want to fill the room!

Registration for February CE

Holland, OH 43528

Community Service

TDHA sponsored a decorated Christmas tree at the 2018 Parade of Trees at the Toledo Club in downtown Toledo. The trees were sold via silent auction and were on public display during several special public holiday events. The proceeds from the auctioned tree were donated to the mission of the Dental Center of Northwest Ohio. Thanks to Miriam Armstrong, Beth Tronolone and Jayne Klett for donating and decorating the 2018 tree. If you want to get in on the fun for 2019, please contact Jayne Klett.

Are you looking to expand your horizons and spread your wings a bit?
There are opportunities to volunteer provide much needed oral health information in classrooms and to parents within Lucas County. Nurses and other staff will be presenting oral health information if hygienists are not available. If this sounds like an idea to explore, reach out to Jayne Klett.

CONTINUING EDUCATION FOR DENTAL HYGIENISTS/ASSISTANTS

NITROUS OXIDE ADMINISTRATION/ MONITORING

This course meets the new regulations for administration of Nitrous Oxide for the Dental Hygienist in accordance with rule 4715-9-01.2 in the Ohio Administrative Code and provides training for Dental Assistants to monitor minimal sedation. The course is the equivalent of a six-hour course, which includes a two-hour online didactic course plus another two hours of didactic instruction (four-hour didactic total), and two hours of clinical experience. For course requirements and additional information, visit www.owensworks.com. Online course available for self-study starting February 2. Deadline to register for class: January 30.

51253 Sat 2/9 8 a.m. - 12 p.m.
Perrysburg \$295

LOCAL ANESTHESIA FOR DENTAL HYGIENISTS

Proper anesthesia knowledge, skills and techniques are critical to today's dental hygienists. This state-approved course combines online study and hands-on training at Owens' Dental Hygiene Clinic to help you build those skills. Participants will be prepared to take the Commission on Dental Competency Assessment Local Anesthesia written exam for Dental Hygienists (formerly known as NERB) to complete requirements to practice in Ohio. This course has been approved by the Ohio State Dental Board and follows the guidelines in the Revised Code 4715.231 and the Ohio Administrative Code 4715-9-01(D). Please visit www.owensworks.com for a complete course description, prerequisite requirements. Twelve hours of online course work must be completed prior to the first class. Online class available for self-study starting February 23. Deadline to register for class: February 18.

51254 Sat 3/9 & 3/16 8:30 a.m. - 6 p.m.
Perrysburg \$795

MEDICAL EMERGENCIES FOR THE DENTAL PROFESSIONAL

This course helps dental hygienists, certified dental assistants (CDAs), and expanded function dental auxiliaries (EFDAs) recognize the symptoms, first aid treatment and possible outcomes for patients who exhibit a variety of emergencies in the dental office, including cardiovascular disease, insulin reactions and epileptic seizures. This course has been approved by the Ohio State Dental Board and follows the guidelines in the Revised Code 4715.231 and the Ohio Administrative Code 4715-9-01(D). Instructor: Debra Manore

From Risk to Results: Periodontal Instrumentation For the Advanced Practitioner

February 27, 2018

2 CEU 's

Registration: 5:30 PM

Courses: 6:00 PM – 8:00 PM

[From Risk to Results: Periodontal Instrumentation for the Advanced Practitioner](#)

Lecture

[Course Description:](#)

This course is based on current scientific literature providing the clinician with evidence based tools and strategies which include the use of periodontal risk assessment protocols, salivary diagnostics, incorporation of the dental exam and progressive treatment planning.

Advantages of ultrasonic instrumentation will be examined as demonstrated in the current research for obtaining successful clinical outcomes while providing comprehensive patient care.

[Course Objectives:](#)

Examine the application of Evidence-based Decision Making (EBDM) for providing optimal patient outcomes by utilizing current concepts in periodontal debridement.

Understand the unique relationship between oral and systemic conditions utilizing the patient's risk factors including current medical status, dental & periodontal considerations, and total patient history.

Discuss the use of salivary diagnostics as part of risk assessment to examine the presence of pathogenic bacteria, genetic markers, and elevated C-reactive protein which all play a role in periodontal disease susceptibility.

Develop an understanding of the role ultrasonic instrumentation plays in biofilm disruption, access to deeper periodontal pockets and furcation involvement critical for successful clinical outcomes.

Recognize the need for a variety of ultrasonic inserts according to patient presentation and clinical significance.
